ARCHITECTURAL LOUVRE SYSTEMS – THE OPENING ROOF

> Indoor comfort outdoors <

An opening roof by Shading Technologies mixes the comfort of your home and the beauty of the natural environment. With concealed fixings and automation, a louvered roof is the seamless feature which connects interior and exterior spaces.

> Outdoor extension - Margret River Area
Two bays with 3m span and standard finish <

The Operable Roof/ Louvre roof as supplied by Shading Technologies is the pinnacle of architectural shading products for the external environment.

We proudly work with Kudos Louvres New Zealand and have quickly forged an outstanding reputation for quality of workmanship at a mind-boggling sharp price.

> Al fresco renovation - Coastal install, Perth
4.6m overall span and 2 tone Bronze anodized finish <

Our special made systems allow for numerous options:

Rain sensor

The weather can be quite unpredictable sometimes and you don't want all of your personal belongings and outdoor furniture to get drenched.

Endless Color options

Durable powder coated & anodised finishes available in colors to suit your house.

> Extension - North Perth

Dropped in to opening created by builder, Powder coat Black <

LED lights

Change the colour of the area to suit your event or your current mood via integrated LED lights.

> Al fresco renovation - North of the River, Perth
7.6m overall continual length, Powder coat Basalt <

> Full home renovation - Bunker Bay Dunsborough, WA
Two bays suspended of the roof <

Customised solutions

Fixed to your current building, into an existing structure or free standing - the opportunities with the roofs are endless.

Opening system

The opening roof is available hand operable or motorised and both systems benefit from the I-drive innovation.

> Backyard Extension - Mosman Park, WA
Black frame work with white panels <

Opening roofs can be 'dropped in' to openings created by your architect and builder and can be build in the following configurations:

- regular rectangular roof
- irregular roof
- multiple panel roof
- raking roof

OPERABLE LOUVRE SYSTEMS - SUN LOUVRES

> Performance through design and function <

Now more than ever before, home owners are spending an increasing amount of leisure time at home. Well designed sun louvres act as a stylish external furnishing for outdoor rooms, screened patios, balconies and windows. Climate control can be achieved using fixed, manual or automated Sun Louvre Systems by Shading Technologies.

Slide, open and move the panels wherever and whenever you want.

The operable panels offer flexibility for your room and can create an enclosed area or an open space.

> Each blade is powdercoated and each panel can be fixed in an angle you prefer <

A photograph of a modern building with a large swimming pool in the foreground. The building features a prominent facade of external venetian blinds. The blinds are white and have a grid-like pattern. The building has large glass windows and doors, and the interior is visible through them. The sky is clear and blue.

EXTERNAL VENETIAN BLINDS

> Total sun control that integrates effortlessly into contemporary or classic architecture <

External venetian blinds by Shading Technologies allow for full, partial or zero weather control.

horiso[®]

helioscreen[®]
Intelligent Sun Control Solutions[®]

External Venetian blinds can be installed during construction or retrofitted onto a building facade which requires effective solar management.

> House improvement - Cottesloe
Black finish <

The Markilux logo is displayed in a red, italicized, sans-serif font on a white rectangular background.The Helioscreen logo features a stylized sun icon to the left of the brand name 'helioscreen' in a bold, lowercase, sans-serif font. Below the brand name, the tagline 'Intelligent Sun Control Solutions' is written in a smaller, all-caps, sans-serif font.

RETRACTABLE SHADING SOLUTIONS

> Automated Blinds & Awnings<

Folding arm awnings are a classy and subtle technology that encourages the outdoor living lifestyle. While other operable products keep the outside from encroaching too far into the interior, the retractable awning allows for complete, partial, or no shade, depending on the weather.

> Contemporary design cutting edge technology <

Global bench mark brand Markilux, fuse technical durability, textile expertise and European design to create the ultimate in retractable shading solutions.

> Choose a color suitable to your existing building <

Excellent details, perfect finishing and long lasting shade for our happy customer.

> STWA Expertise <
